2-Day Workshop on GCP Guidelines conducted by Chilkur Balaji College of Pharmacy in collaboration with Clinosol Research Pvt. Ltd. on 7th – 8th Feb 2020.

Good Clinical Practice (GCP) is defined as an international ethical and quality standard for the design, conduct, performance, monitoring, auditing, recording, analyses, and reporting of clinical trials, that provides assurance that the

- Rights, safety and well-being of human research participants are well protected
- Data and reported results are credible and accurate

The Chief Guest of the workshop was Dr.MUR Naidu - Independent director of NACTO Pharma Limited. Dr. MUR Naidu is former Dean, Faculty of Medicine, Nizam's Institute of Medical Sciences' Panjagutta. He served various positions in national and international universities. He is a pioneer in Clinical research, having conducted many trials.

Learning Objectives of the Workshop:

- To understand principles of GCP, roles and responsibilities of various stakeholder involved in clinical research.
- To understand current ethical and regulatory requirements for conducting clinical research in India
- By acquiring a certificate of GCP the students can give an assurance that the rights, safety and well-being of human participants are well protected and the data from the study results are credible and accurate

Research?

Research is the gateway for entry of new drugs into the market, where many drugs fail to perform and are discarded at this stage. It is important to conduct clinical trials in a fool proof manner that will harness the full potential of the drug substance, which requires a sound knowledge of underlying principles.

Why?

The international council of Harmonization of Technical Requirements of pharmaceutical products (ICH) is an international body that sets the standards for clinical practices, which define the overall framework for Clinical Trials.

Certification is needed?

A pharmaceutical manufacturer wants all the professionals involved in Clinical Trials right from designing to execution to be certified in Good Clinical Practices to meet the standards set by the regulatory authorities.

Research Pvt.Ltd.

Research Pvt.Ltd. is an independent organization that provides specialized training in various areas of clinical research. Its focus is in training and certification of professionals. Research Career enthusiasts and bringing the industry level to college level to create that bridge between the candidates which is proven to be the time of Job hunt.

Where our students got the placements

About the workshop:

This workshop gives a complete picture on various GCP modules- ethical conduct of clinical trials, important considerations of protocol and its compliance, identification of risks associated and benefit risk assessment, IRB and its processes, and informed consent

1. Chief Guest: Dr.MUR Naidu

Independent director
NATCO Pharma Limited,
Hyderabad, India

Dr. MUR Naidu is former Dean, Faculty of Medicine, Nizam's Institute of Medical Sciences Pungagutta. He served various positions in national and international universities. He is a pioneer in clinical research, having conducted many clinical trials.

2. Guest of Honor: Dr.Ravuri Venkataswamy

Chairman of Srinivasa
Educational Academy

Dr.R.Venkata Swamy is the founder chairman of Chilkur Balaji College of Pharmacy, extending his hand to maintain the organizations for the bright future of the students.

COLLEGE:

Balaji College of Pharmacy was established by Srinivasa Balaji in the year 2007 keeping in mind the needs of the pharmaceutical industry in view. CBCP attempts to play a key role in producing highly qualified and professional personnel for trade and industry. CBCP attempts to bring the best Global Education in the field of pharmaceutical sciences through Research and Development.

VISION:

To produce a dynamic, competent, and knowledgeable Professionals, who will contribute to the Nation to a better future.

MISSION:

Quality Education, student-centered learning processes and state-of-art infrastructure for professional aspirants hailing from rural and urban areas.

To transform the Institution into a Center of Excellence in Pharmaceutical Education and will be world class in the field of pharmaceutical sciences and pharmacy practice with the mission of providing the healthcare of the country.

IN ASSOCIATION WITH

Co Guide

CoGuide

What is research?

Creation of new knowledge or using the existing knowledge in a new and creative way so as to generate new concepts and understandings.

What is research methodology?

Specific procedure or techniques used to identify, select, process, and analyze information about a topic useful to estimate the overall validity and reliability of the research.

What are statistical techniques?

Measures used to draw a meaningful interpretation of the collected data and reporting the research findings. This includes planning, designing, data collection, analyzing & drawing meaningful interpretation, reporting the research findings.

Importance

The strength of the research relies on the methodology used and the statistical technique used to interpret the data and report the findings. So, it is very important to have a sound knowledge on these concepts before starting a research project/ thesis.

About the workshop

This workshop provides detailed insights into various research methodologies, statistical tools and appropriate statistical measures to be used for a research project. The sessions discuss, how to decide your thesis topic and steps in conducting the research, doing literature review, writing plagiarism free content, citing the literature, how to choose good title, objectives of the study, various data collection tools, how not to present data, brief of data analysis and how to write discussion, conclusions and preparing master document. At the end the house will be open for questions or queries.
